	Institute of Technology, Lohgaon Pune - 47	
	Department of Artificial Intelligence and Data Science	

Semester -I A.Y.2025-26 Sub.: - Artificial Intelligence Lab

Class: SE

The screenshot shows a web browser window displaying a GitHub repository page. The repository is named "Artificial\_Intelligence\_Lab\_SE\_B\_27" and is a fork of "KiranGaikwad2020/Artificial\_Intelligence\_Lab". The page shows the repository's structure with files like "Artificial\_Intelligence\_Lab", "images", and "README.md". The README file is open, showing the title "Artificial\_Intelligence Lab" and a description: "This repo demonstrates the knowledge base to understand basics of Artificial Intelligence. It has course material designed as per the S.E. Artificial Intelligence and Data Science, SPPU, Pune." Below the description, there are "Course Objectives:" listed as bullet points:

- To introduce fundamental concepts and techniques in Artificial Intelligence.
- To enable students to implement key AI algorithms for search, reasoning, and learning.
- To develop practical skills in solving real-world problems using AI.

The right sidebar of the repository page shows various statistics and links, including "About", "Releases", "Packages", "Languages" (with Python at 100.0%), and "Suggested workflows" (with Django).
